Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Warren et al., US patent number 5,963,909.

With regard to claims 1, 17, and 19, Warren discloses a method to enforce access to a media file (column 1 lines 8-10) including partitioning the media file into sequential data blocks (column 3 lines 8-9), encrypting the data blocks with a plurality of encryption keys (column 3 lines 9-15) transferring the data blocks and the keys to a client (column 5 lines 44-49) wherein the frames are sent in portions over a communications network (column 5 lines 47-49). Warren further discloses that each frame is individually encrypted, and since the key may be carried in a key layer, the frames can be decrypted in a frame by frame basis (abstract lines 17-20), thus the receiver can only decrypt the frames which he has received the key for, which is less than the plurality.

With regard to claims 2-6, Warren discloses the media file can be multimedia, video, audio, and text (column 4 lines 47-52).

With regard to claim 7, Warren discloses the media can be compressed (column 2 lines 32-35).

With regard to claims 8 and 9, Warren discloses encrypting each data block with a corresponding key (column 3 lines 8-10).

With regard to claims 10-12, Warren discloses recording the data blocks and keys onto a medium or transmitting them over a communications link (column 1 line 66-column 2 line 2).

With regard to claims 13-16, Warren discloses the data blocks and keys are stored and loaded in sequential order (column 3 lines 50-56, column 4 lines 14-22).

Response to Arguments

3. Applicant's arguments filed 14 November 2005 have been fully considered but they are not persuasive.

With regard to applicant's argument that Warren does not disclose selecting a subset of the keys, the examiner points out that all transferred data is selected to be transferred by the sending computer. As the media is being streamed, the receiver receives a subset of the keys, which can be used to decrypt only a portion of the media sections (column 3 lines 18-27).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2134

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
